Benefits of Program:

- Jump starts the college career of your future graduate with the convenience of online courses.

High School Coordination:

Primary communication will be between the ACCELERATE Program Coordinator, student, and professor. However, the Program Coordinator will communicate with school administration and parents on a regular basis when needed. Because of the utilization of numerical grades for transcript postings and class rank at the high school level, instructors of ACCELERATE dual enrollment students will submit a numerical grade to the ACCELERATE Program Coordinator in addition to posting letter grades in Trojan Web Express. The ACCELERATE Program Coordinator will provide the administrator the official numerical grade for transcript upon written request from the student or guidance counselor.

Eligibility Requirements:

- Must be in the 10th, 11th, or 12th grade.
- Must have a cumulative high school GPA of 3.0 or higher.
- Must have a COMPOSTIE Score of a 20 [ACT], 1030 [SAT] (no writing), or recommendation letter from school counselor/administrator.
- Must complete the ACCELERATE Approval Contract.

Application Process:

- Submit the eTROY application for admission and choose "ACCELERATE High School Dual Enrollment" as the intended degree program.
- \$30 undergraduate application fee.
- Submit official high school transcript.
- Submit test scores or recommendation letter.
- Submit the ACCELERATE Approval Contract

Granting of Credit:

Grades will post at the end of each semester. TROY does not mail paper grade reports. An electronic report will be sent upon request. Students will be able to access their grades through Trojan Web Express. Once an ACCELERATE student has graduated high school, submitted all missing documents, and cleared admissions, they will be able to request their official transcripts from Troy University.

Internal Coordination:

The ACCELERATE Coordinator will coordinate all course offerings and assure appropriate instructor assignments. Additionally, the Coordinator will inform all instructors that the course is dedicated to students enrolled under the dual enrollment program. The Coordinator will provide all necessary support for students and facilitate successful communication between instructors and students.
